

半自动气雾剂灌装机 Semiautomatic Aerosol Filler

1. QGB Semiautomatic Double-Head
Internal Solvate Filter

Fill Capacity: 30-500ml
Measuring Precision: $\pm 1\%$
Can Height: 70-330mm
Production Capacity: 1200-1600can/hr

2. QGB Semiautomatic Capper

Valves: 1" (25.4mm)
Measuring Precision: $\pm 1\%$
Can Height: 70-330mm
Production Capacity: 1200-1500can/hr

3. QGB Semiautomatic Air Inflator

Fill Capacity: 30-500ml
Measuring Precision: $\pm 1\%$
Can Height: 70-330mm
Production Capacity: 800-1200can/hr

全自动气雾剂灌装机 Full-Automatic Aerosol Filler Line

The machine is integrated with overseas advanced technology: independent control of filling head; no material extraction without can; guiding style capping; running stop in case of poor capping; guiding style filling boasting accuracy, high efficiency, low air consumption; automatic weighing machine, big capper and code sprayer are attachable. The machine is in the leading position in the trade, finds sell in Europe, America, Africa and Southeast Asia etc.

Filling Capacity: 50-750ml
Filling Accuracy: $\pm 1\%$
Air Filling Capacity: 50-750mm
Air Filling Accuracy: $\pm 1\%$
Sealing Accuracy: $\leq 1\%$
Production Capacity: 1800-2400cans/hr.
Work Pressure: 0.65-1Mpa
Max Air Consumption: 3m³/min
Applicable Can Dia: 35-65mm
Applicable Can Ht: 80-330mm
